DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This home is a two-story frame structure with a tile exterior. It is five bays by two with an inside end chimney in each gable wall. The roof is covered with asbestos shingles and has a box cornice. A one-story front porch on the east side of the building is enclosed for three bays and open on the remaining two. On the open side of the porch are several posts that have been chamfered. The house sits on a stone foundation while the porch has brick supports.

On the rear of the building a two-story addition has been constructed with a shed roof. The sash throughout the house is six over six. Of note is the difference in size between the two chimneys in the original structure. The chimney that is located in the south gable end is much wider indicating several flues.

 SPECIFIC DATES

 BUILDER/ARCHITECT

 STATEMENT OF SIGNIFICANCE

This house has no historical significance but it should be preserved and a restoration would do wonders for this building.
